

Dear Families,

We are excited to announce that students will soon be able to start creating things in our new iLab Makerspace. A makerspace is a place where students are encouraged to create, tinker, explore, discover, and invent using a variety of tools and materials. In the makerspace, students work independently and collaboratively to solve real-world problems through hands-on exploration. Students learn cooperation, problem solving, and perseverance as they explore and dive deeper into their learning.

In order to begin preparing our makerspace activities we will need your help collecting some supplies. Attached you will find a materials list. Some of the materials are items that you can find around your house, while other items can be purchased at your local craft store or dollar store. Any items that you are able to donate would be a huge help in getting our makerspace up and running. We will gladly accept items throughout the year. Please drop off your donations in the box located in the iLab. Thank you for your support of our students!

Sincerely,

Mrs. Gamble
NCCS Innovation Lab Instructor

List of MakerSpace Materials

We are in need of the following items:

Recyclables:

- Paper Towel Rolls
- Toilet Paper Rolls
- Small Cardboard Boxes
- Empty Water Bottles
- Empty Soda Cans
- Egg Cartons
