RE: School Update

Thank you for your encouragement and patience during this time. Here are a couple of updates;

Student Work Packets: Our staff has put together work packets for students. These packets are available for pick up in the school office beginning Wednesday for students in all grades except 6th grade. Packets for students in grade 6 will be available starting Thursday. Our 7th/8th grade teachers have sent out an email to their parents. If you are one of these parents and have not received an email, please contact the office.

Our teachers are available to assist and can be reached by email or by leaving a message at the school.

Chromebooks: Teachers have worked to make sure students have work that does not require on-line access. However, we do have many resources available that are online. We are able to checkout chromebooks to students if they don't have a computer at home. These chromebooks do need wifi access at home. Parents can leave a message at school if they need help getting the chromebooks connected at home.

Student Lunches: Enterprise School District is providing our students lunches if they need them. A drive-through lunch can be picked up at any Enterprise school from 11:00 – 1:00 Monday through Friday. Mistletoe School is one of the schools and is located at 1155 Mistletoe Lane in Redding.

Office Hours: The school office will be closed on Fridays but open as follows:

March 18 – 19: 8:00 – 2:00

March 23 – 26: 7:00 – 11:00

March 30 - April 13: Closed

Communication: Parents should be receiving email and text communications from the school. If you are not receiving these, please contact the office so we can update your information and/or determine why you are not receiving this information. Continue to monitor our website for information. A variety of student resources can also be found under the STUDENT tab on our website.

Reopening Date: We anticipate students returning on Tuesday, April 14th. Information is changing daily and we could open back up sooner or later depending on the current state of the coronavirus.
